

VOTING SOLUTIONS FOR ALL PEOPLE

ACCESSIBILITY

Human centered design that makes voting easy, user-friendly, and accessible to all.

The new voting experience in Los Angeles County is designed to be intuitive and accessible for all voters. Innovative changes give all voters regardless of age, background, disability or language a private and independent voting experience that is easy and convenient.

FLEXIBLE OPTIONS

Voters will be able to vote at any vote center throughout the County for an election period of up to 11 days. All voting devices at vote centers are fully accessible.

INTERACTIVE SAMPLE BALLOT (ISB)

The ISB is a convenient option for voters who want to mark their selections at home, using a personal device with their preferred tools. The ISB creates a Poll Pass - like an airline boarding pass. At the vote center, voters scan the Poll Pass to transfer their selections to the Ballot Marking Device (BMD). Then, they can review and/or change their selections before casting their ballot.

BALLOT MARKING DEVICE (BMD)

The BMD makes it easy for voters to customize the voting experience to fit their needs. Voters can adjust settings on the BMD including user interface contrast, text size, screen angle, and audio volume and speed.

Four user interface modes make it easy for all voters to vote privately and independently.

Touch

Interact with the touchscreen

Touch + Audio

Interact with the touchscreen and hear audio instructions through headphones

Controller + Audio

Interact with a tactile controller with braille labels and adjustable cord and hear the audio instructions through headphones

A/B or Dual Switch Port

Interact with your own personal device. Using the available port for assistive technology devices, view interactions on screen and hear audio instructions through headphones
